THE COLLEGE PREPARATORY CATHOLIC SCHOOL FOR WOMEN

Regina is more than bricks and mortar. It is a community in which we all share a commitment to academic excellence, leadership development and self-confidence for young women. It is a community that appreciates the benefits of personal attention and a supportive environment. And it is a community in which many of the friends made at Regina remain friends long after graduation. We hope you visit often and use your visits to stay informed and stay connected to Regina.

THE STUDENTS SPEAK OUT

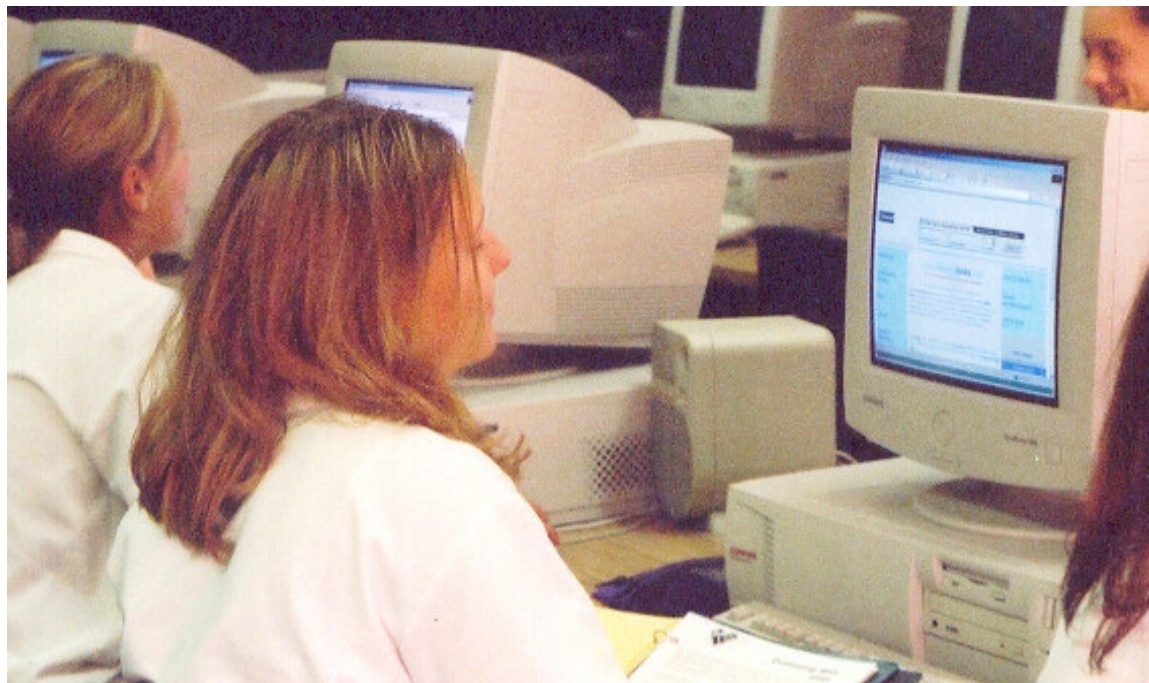

When I started school I
wasn't really sure where
I fit in. Going to Regina has
not only allowed me to
realize my true strengths,
but it's a place where I've
made some life long
friendships.

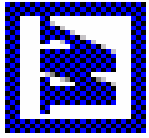

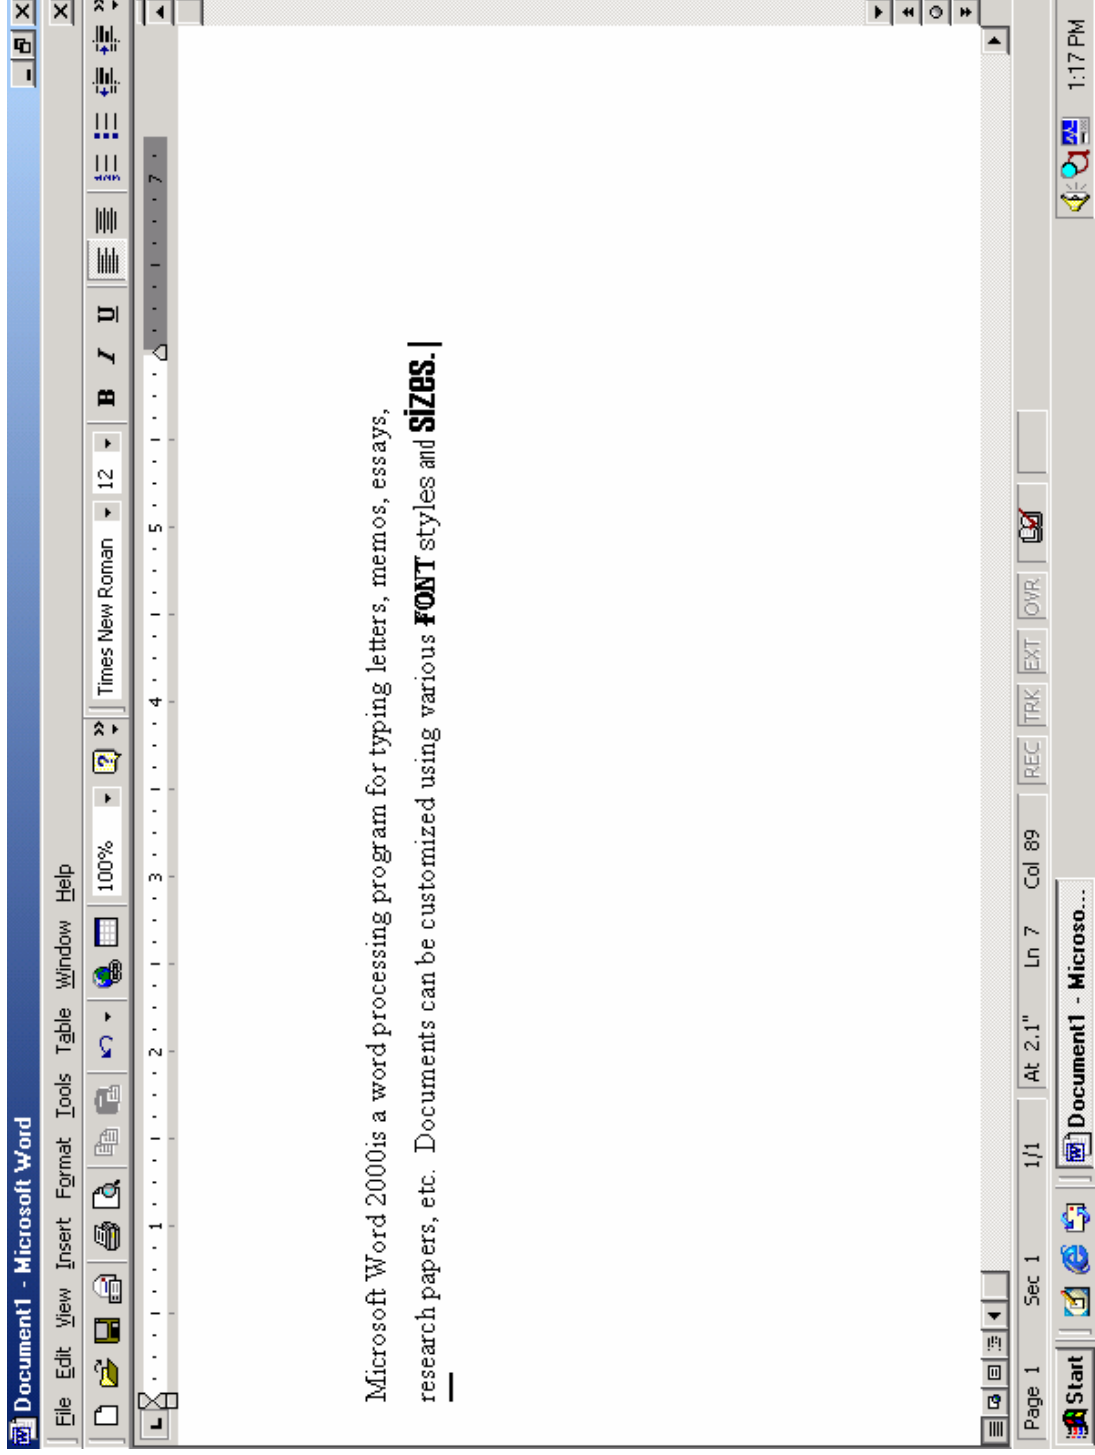

Internet Explorer

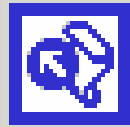

Each member of the Regina Dominican community has a designated e-mail address and network personal storage folder. All of the computers in our buildings are networked. Regina Dominican has a T1 line for speedy Internet access.

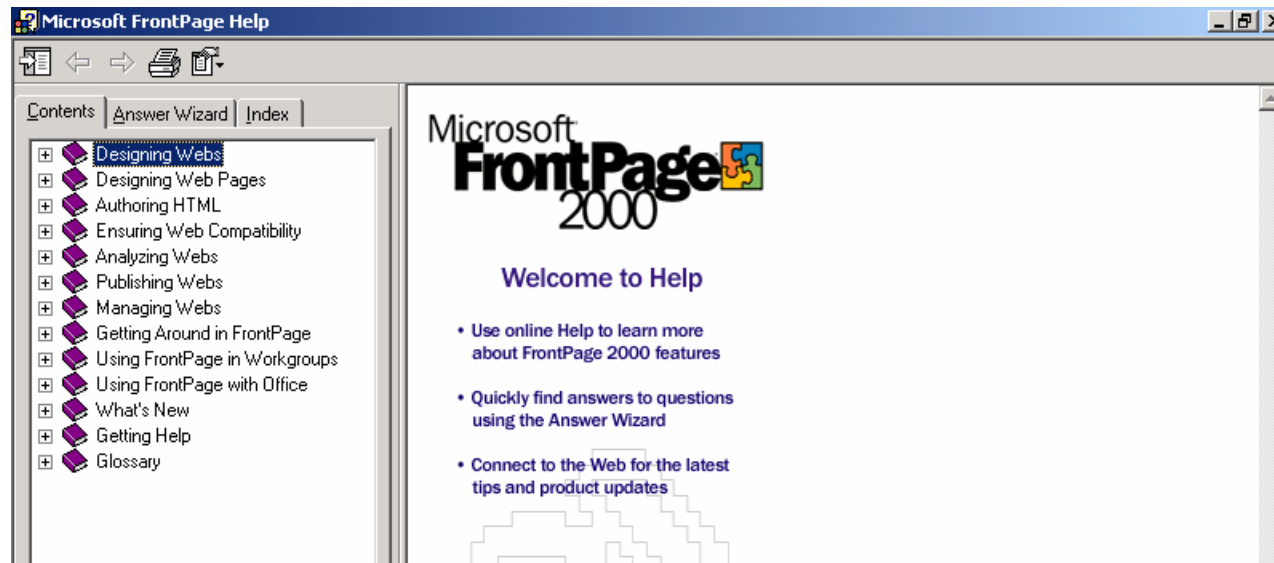

Microsoft Word

Microsoft FrontPage

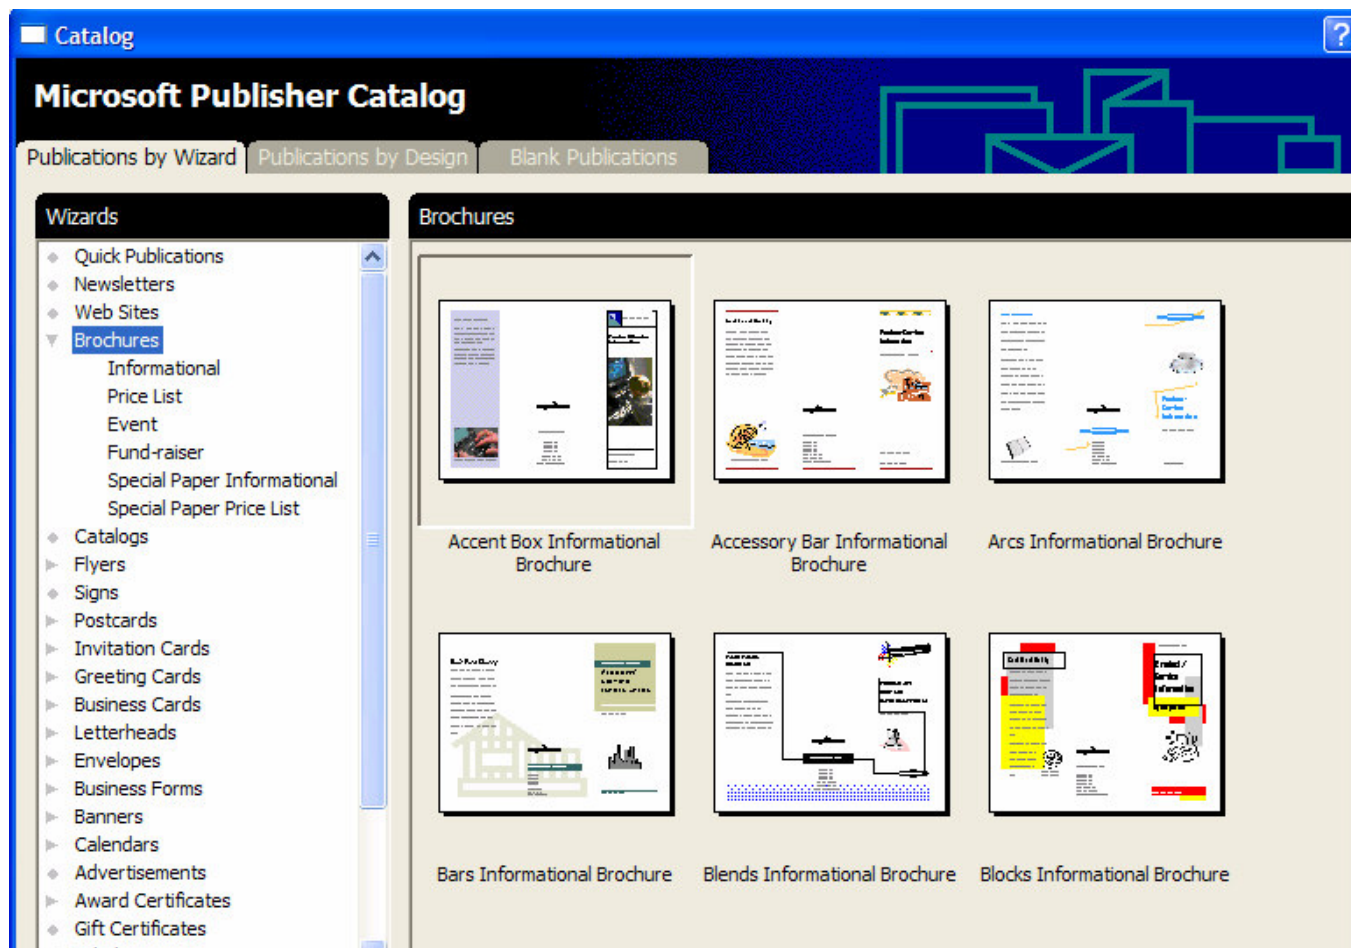

Students and faculty use Microsoft FrontPage to design web sites and web pages. We maintain our own Internet site. Technology faculty teach FrontPage and many other Microsoft programs, and provide technical assistance before, during, and after school.

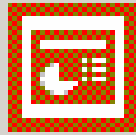

Microsoft Publisher

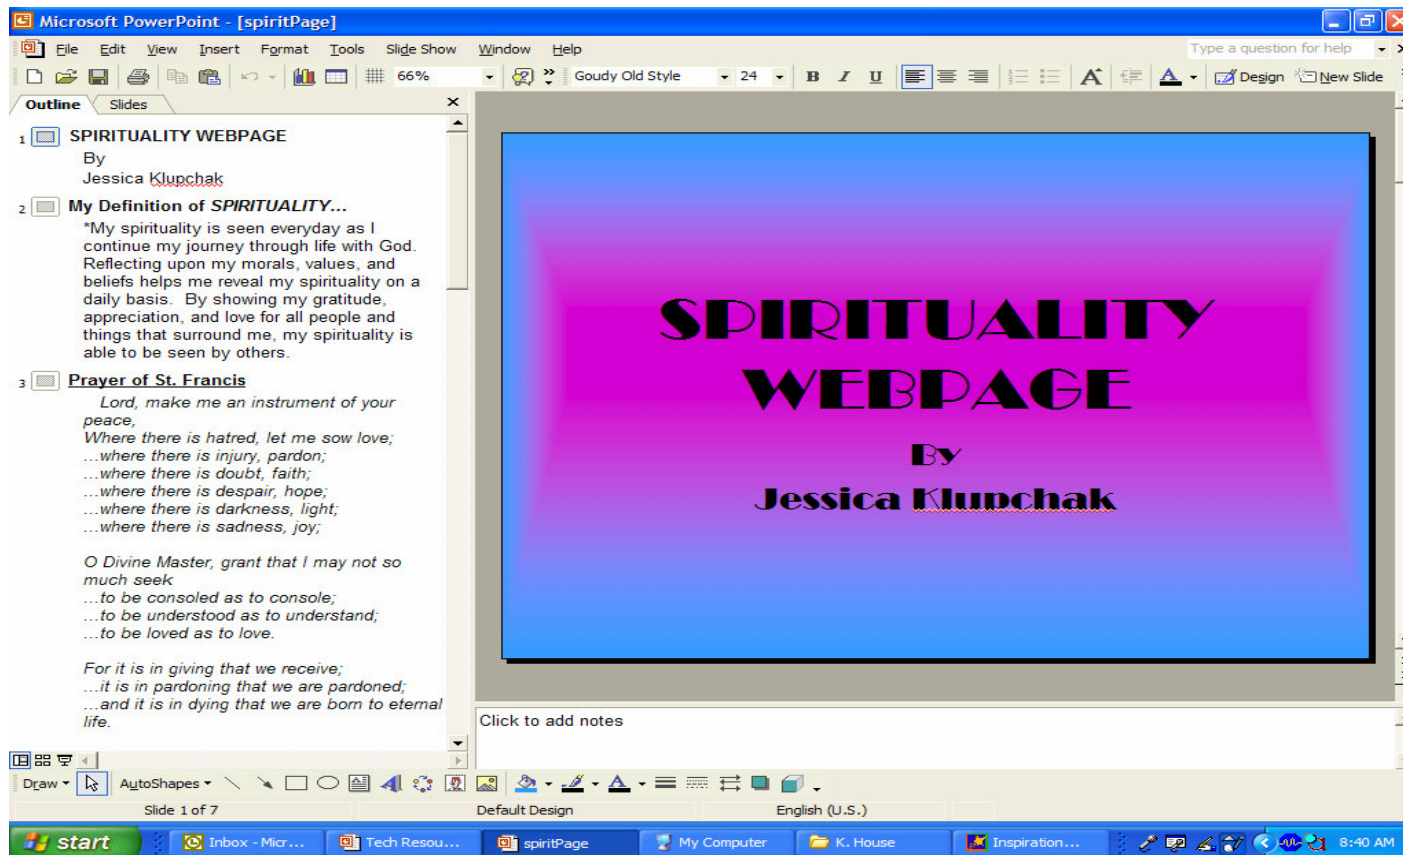

Users create newsletters, brochures, invitations, calendars, and letterheads, just to name a few endeavors.

Microsoft Powerpoint

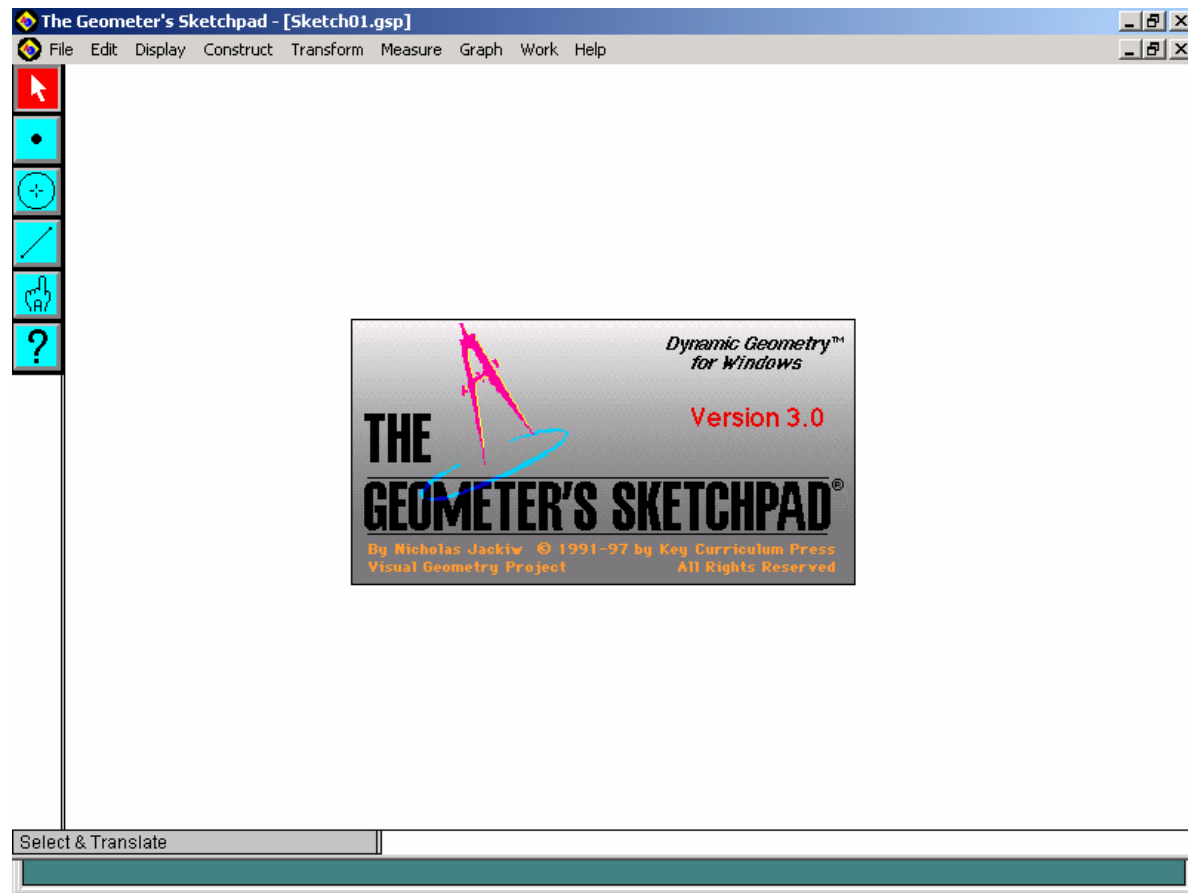

PowerPoint is a *powerful* way to demonstrate an idea and to organize information. PowerPoint is part of our required curriculum in Cyber.comm.

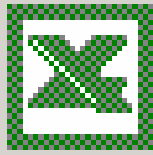

SketchPad

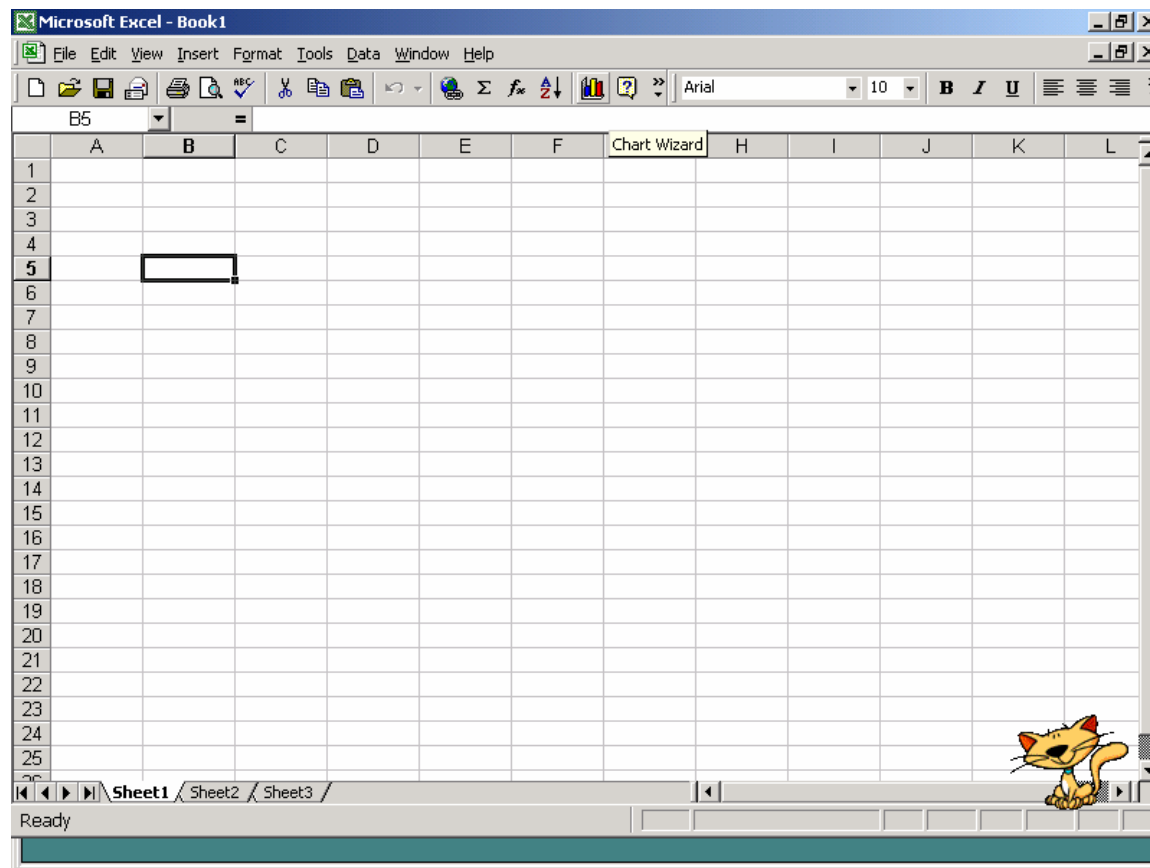

SketchPad is a math program where students learn geometry through plotting and animating equations and graphs.

Microsoft Excel

Faculty and students utilize the Excel program in the creation of spreadsheets, graphs, and charts.

HOLT

Please click one of the buttons below.
Individual will record your progress under your name. **Group** will record progress under a group name. **Guest** will not record progress within an activity. Quit will quit the program.

Inspiration provides the tools to create a map or flow chart; users access a library of symbols or import their own.

Microsoft Access

Access is a data base program that allows customization of data for projects.

Advanced Placement Spanish

Our computers have special learning resources and programs for Spanish, French, and Latin. In addition, we accommodate all student levels throughout the curriculum.

CD Creator

Regina Dominican has several CD burners that are available to copy both audio and data files.

Regina touts a wireless network!

Regina Dominican has two mobile computer labs consisting of 31 laptops. The wireless routers enable our entire campus to stream digital information using our Intranet and the Internet.

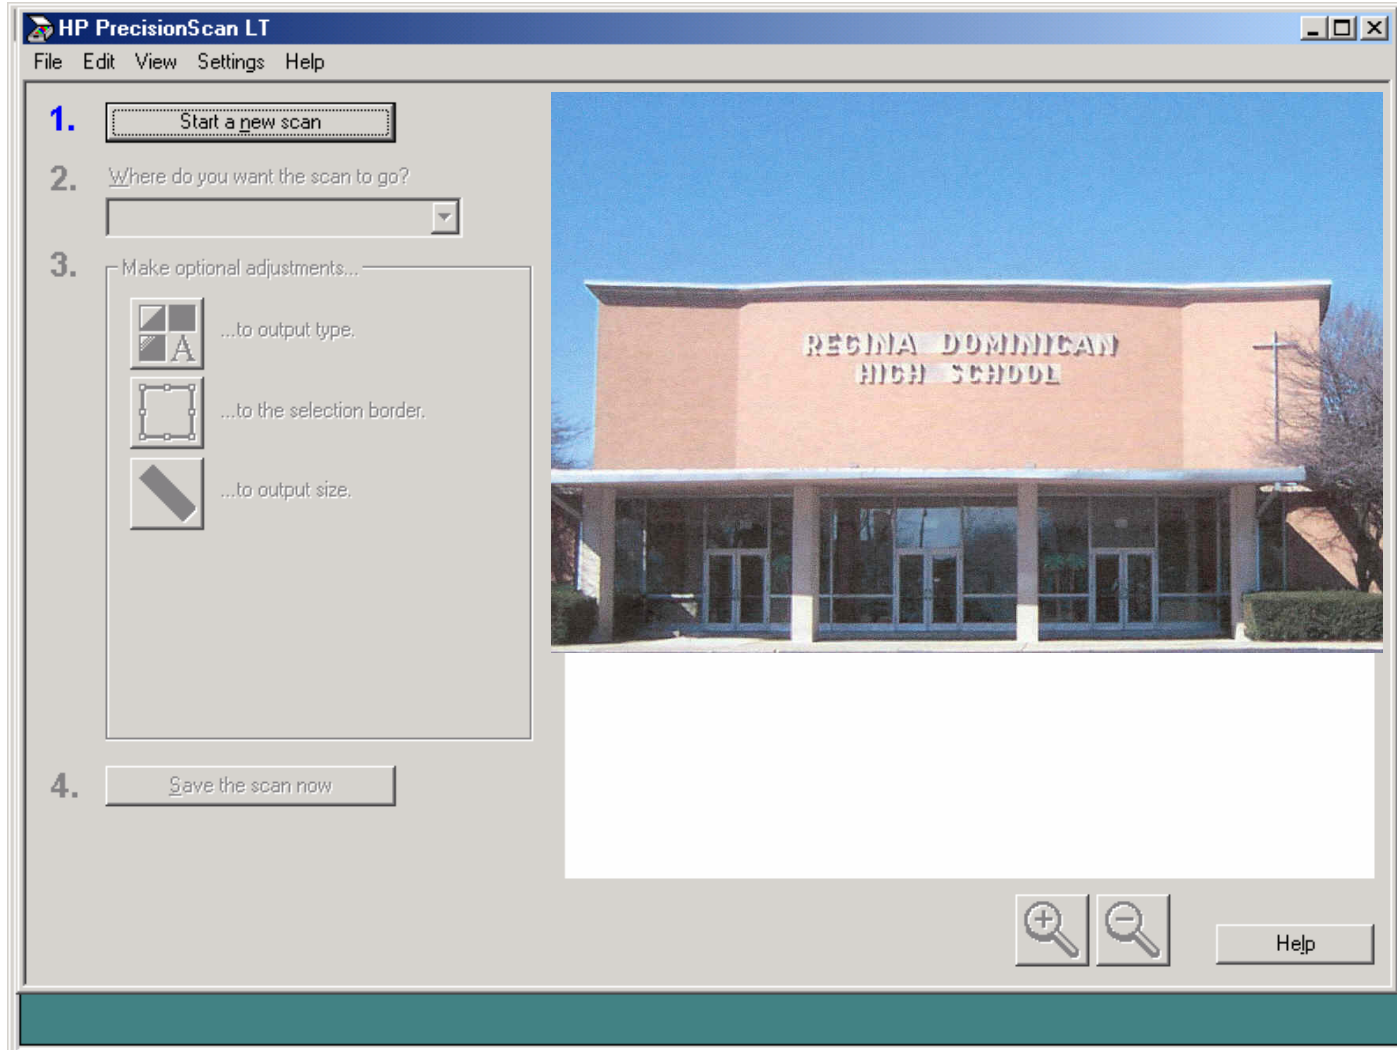

The caliber of technology at Regina Dominican is significantly enhanced by the donations of a JVC High-Definition camcorder, a video editing computer with the Adobe Suite software, the cutting-edge Epson HD projector and screen, and high-grade speakers in the small auditorium, Room 113. These gifts make the small auditorium a fully-functioning movie screening theater. Regina Dominican is at the forefront of high schools because of our video-editing and video-streaming capabilities.

Additionally, students channel their creativity through the Digital Media Club. Students tape co-curricular activities such as sporting events, musical performances, forensics, WYSE, Mathletes, fund-raising events, and field trips. They enhance their diagnostic digital portfolios, archive historical data, and create DVDs.

There are several scanners throughout the building.

The technology ratio is one computer for every four members of the Regina Dominican community. We have special labs for the following:

Art

HD Media

Library

Music

Teaching

Yearbook

Regina Dominican Security

- Each Regina Dominican student and her parents sign an Acceptable Use Policy. This policy stipulates that the utilization of electronic resources is a privilege. The student uses our technology resources with responsibility and integrity.

Library

The Regina Dominican Library is a state-of-the-art facility that offers a wide variety of resources accessible via the Concourse Online Public Access Catalogue (OPAC). In addition, Regina Dominican is a member of the North Suburban Library System (NSLS) providing students borrowing privileges at other Illinois libraries. Moreover, students use the Internet to conduct reference searches. Various data bases link students to primary sources, including scholarly journals, magazines, books, and newspapers. Many articles appear in full text.
