

REGINA DOMINICAN

THE COLLEGE PREPARATORY CATHOLIC SCHOOL FOR WOMEN

(04.28.05)

Regina alum to appear on *Jeopardy* on Monday, May 2

Pam Mueller, a contestant in Round Two of *Jeopardy's* Ultimate Tournament of Champions, has competed in academic competitions long before she became *Jeopardy's* College Champion in 2001.

A 1998 alumna of Regina Dominican, Pam was a member of the school's Worldwide Youth in Science and Engineering (WYSE) team. Taking first place individually in English, Pam helped to bring home the state championship in her senior year. Regina Dominican was the only all-girl school to be represented in the state competition that year.

WYSE competitions, called Academic Challenges, are comprised of a battery of tests in such areas as mathematics, biology, chemistry, physics, computer graphics, engineering and English. The competitions are held at the sectional, regional and state level in Illinois.

An honors student, Pam also competed in Regina Dominican's Mathletes and forensics teams and was named a Merit Scholarship Finalist and an Illinois State Scholar. She graduated from Loyola University-Chicago. Pam currently resides in Washington, D.C. and plans to attend law school.

Pam will appear on *Jeopardy* on Monday, May 2 at 3:30 p.m. on WLS Channel 7.
